

Graphic Designer

I like to push myself, learn, make meaningful and appropriate work, and have a bit of fun while I'm at it.

## Industry Experience (3+ years)

Graphic Designer at The Write Company, Amsterdam, Netherlands  
(Aug 08 - Present)

I am currently working full time at a Graphic Design/Copywriting agency in Amsterdam. My duties include all aspects of the design process, concepts, design, layout, and client and supplier liason.

Graphic Designer at Hive Creative, Melbourne, Australia  
(Aug 06 - May 08)

Moving onwards and upwards from New Zealand to the creative hub of Australia, Melbourne, I landed firmly as a designer at Hive Creative. It's a medium sized company, where I worked closely with a range of Designers, a Finished Artist, Web team and our Creative Director, giving me a chance to learn, and push my skills. While at Hive I worked on a range of projects big and small, corporate and edgy, web and print. I worked on projects from conception, design and layout right through to handing it over to the Finished Artist, either carrying a project from start to finish, or getting involved at any stage in between.

Graphic Designer at Horizon Advertising, Napier, New Zealand  
(Jan 05 - Jan 06)

Working at Horizon Advertising was a great start to my career. In one year I worked on a huge range of projects, including logos, stationary, brochures, website layouts, advertising, signage and packaging. I was involved in the entire design process, from the initial concept through to preparing files for pre-press. My role also included liasing with clients, suppliers and other professionals involved in the industry.

## Education

Bachelor of Visual Arts and Design, majoring in Graphic Design,  
at The Eastern Institute of Technology, New Zealand  
(2002 - 2004)

## Employment Details

Although I am a New Zealander, I am lucky enough to have a European Passport, so it is no problem for me to work anywhere in Europe.
